# User Manual

Main Page
If you never have play roguelike game before, click "Rules" button. Otherwise let's click "Start" to play.

Map Menu Page
Once you start play, there are three difficulties that you can chose. We recommend that you start with easy mode and try hard later, the monster will be so strong in hard mode!

Game View
Now you are in easy mode, there are some basic component you need to familiar with:

a. **Your position**
b. **Monster position**
c. **HP**
d. **Sword**
e. **Next Level**

How to play: press "up", "down","right", "left" on your computer, see how monster will chase on you!

Monitor panel: On the right side, we will keep track which level you are in right now. How much HP, and how many sword you currently have.
